

Unanet GovCon Support for DCAA Timekeeping & Expense Reporting Requirements

SUPPORT FOR DEFENSE CONTRACTORS AUDIT AGENCY (DCAA) AND GOVERNMENT CONTRACTORS

Unanet GovCon has features and functions that directly support the requirements stated in the Automated Timekeeping Systems section of the DCAA regulations.

Note that DCAA requires that the timekeeping process, collectively including policies, manual procedures, and tools be compliant; the software alone is not audited for compliance or certified nor approved as DCAA compliant. The Unanet GovCon solution has been reviewed by auditors at customer sites, and along with the customer policies and procedures approved as supporting the DCAA regulations.

Unanet GovCon makes implementation of the DCAA regulations easy and efficient. Here is a small sampling of the DCAA regulations our solution supports:

- Employees charge time to authorized, open projects
- Employee access time through a secure password
- Employee records viewable and auditable comments for any timesheet change
- Supervisors approve the entire timesheet
- All time must be reported (total time accounting)
- Administrators monitor delinquent timesheets

UNANET GOVCON OVERVIEW

Unanet GovCon web-based software helps organizations manage people and projects for improved profitability, project performance, compliance to government regulations, and reduced costs. For example, Unanet reduces processing costs for timesheets and expense reports by 90%. Beyond tactical improvements, Unanet GovCon real-time project reporting drives key decisions for choosing the right things to do. Unanet GovCon software is categorized in the Professional Services Automation and Project Portfolio Management software industry.

For information on DCAA audits, please refer to dcaa.mil.
